NATIONAL FUNDING: WHAT DOES IT MEAN FOR BENEFICIARIES?

- **National partners sign funding agreements/funding letters with their national funding agencies**
- **National and EU-funding will be paid out to beneficiaries by the national funding agencies, according to national regulations and procedures**

... funding according to national rules means ...

- Partners have to take over some more responsibilities than in other cooperative projects (negotiate the own funding agreements, national reporting)
- Coordinator does not convey money to the project partners
- Proposers are often already familiar with the national funding schemes and reporting
- NCPs act as contact persons for national project partners and coordinators
