

Application for autobiographies

Contact:

martin.lipovsek@gmail.com

peter.krivic66@gmail.com

Slovenian innovators who came up with the idea

- Martin Lipovšek MA
- Peter Krivic

Support organization: University of Ljubljana, The Knowledge Transfer Office

- Dominik Bagola
- Nina Smerdu

Cooperating for contact with end-users: NGO Simbioza

- Organization for intergenerational coopetition
- Has close connections with nursing homes

Who We Are

SIMBIOZA
MED GENERACIJAMI

Project idea

Idea:

- Smartphone application for dictation of autobiography for elderly (and others)
- Has capability for voice-to-text
- Automatic algorithm for grammar and editing of text
- Prerecorded questions for easier construction of autobiography
- Company can help print ready texts as books...

Idea is socially beneficial

- For elderly who will know their precious memories will not be lost
- For relatives, friends
- For those who will get voluntary access, like general public and historians

Idea is economically interesting

- All nursing homes can order subscription to this application
- Individuals who wish easy way to write an autobiography will buy it
- Since it is socially beneficial it is candidate for public tenders and funds

Our plan

- Go on AAL Call 2021
- Form consortium with companies around EU
- Construct application

Partners

- We are searching for partners around the Europe
- We need private companies for development of the application
 - Most importantly we need partners in software development
 - We need partners in marketing
 - We need partners in graphical design
- Anyone else is welcome to contact us
