

AAL

PROGRAMME

BRANDGUIDE
OCTOBER 2015

INTRODUCTION AND GENERAL STANDARDS: USE OF THIS MANUAL

The objective of this Brandguide is to provide standards of usage for the Ambient Assisted Living association (AALA) Logo and consistency in graphic layout.

A corporate logo symbolizes a company's strength, confidence, promise of quality and competence. Proper treatment of a corporate logo ensures that it will be recognized amid communications clutter.

Graphic standards are a visual expression of our organization, and serve as the foundation for our overall communications strategy. A well-managed graphic standards program provides a consistent message and image. It is extremely important that these standards be followed precisely to maintain the uniformity of presentation required for successful results.

Do not deviate, under any conditions, from the standards set forth in this Guide.

This Guide outlines the core elements of logo usage and how to apply them to printed and communication materials. Possession of this Brandguide does not relieve the holder from the responsibility of obtaining corporate approval. Items of any kind that bear a AALA logo may not be produced prior to approval by AALA. There are no exceptions to this procedure.

Every employee is responsible for helping to make the organization's communications strategy a success. Please contact AALA if you have questions about the policies or standards in this manual.

LOGO GUIDELINES

NEVER remove any element from the original logo artwork.

NEVER distort the logo (i.e., never condense or extend the logo, or make it bolder or thinner).
Logo **MUST** remain proportionate to the original artwork at all times.

NEVER modify any of the letter forms.

NEVER reproduce the logo in an unauthorized color or on a background color that is not an authorized color.

NEVER use the logo in conjunction with any other logo unless approved by AALA.

NEVER use the logo as headline type.

NEVER reproduce the logo over a complicated or patterned background.

NEVER surround the logo with another shape that could form a different mark.

NEVER use a drop shadow with the logo.

NEVER rotate the logo.

NEVER alter the proportion between the logo and any associated typography.

The AALA corporate logo guidelines apply whether the logo is reproduced in color, greyscale, reversed to white or in black only. In addition, the relative size proportions and positioning of these logo elements must always remain constant. Never attempt to recreate this logo.

A transparent version of the AALA corporate logo, without the swoosh and the word Programme, can be used on a white background when used on pictures for both print and digital communications.

SIZE AND SPACE

The AALA logo should never be reproduced in a size smaller than 3 cm in horizontal length. Exceptions must be approved by AALA. For maximum impact and clarity, an area of clear space must be maintained around the AALA logo. This clear space provides a protective area surrounding the logo within which no other graphic elements such as typography, pictures, art or borders may intrude.

The clear space must equal 1/2 (or more) of the height of the AALA logo. Never allow any other elements within the clear space.

The **minimum size** of the AALA logo is **3 cm** in horizontal length

- Clear space around logo must be at least the height of the letter “A” in the AALA logo.

COLOR SPECIFICATIONS

PRIMARY COLORS

The AALA color palette consists primarily of Blue and Yellow with the option of a Black (for text only). The color logo must never be reproduced on a black or dark background.

CORPORATE TYPOGRAPHY

Type is an important element in creating consistent brand identity. The typefaces shown to the right are the only acceptable typefaces for use in producing AALA corporate print materials. The following general guidelines should be applied when producing AALA corporate print materials:

Body Text should be set in Avenir LT Std Light in no larger than 14 points and never smaller than 7 points. Posters, displays, exhibits or other large-scale materials may use larger point sizes as approved by AALA.

Italic or Bold typefaces are used to show emphasis on special or important information within body copy, including headlines and subheads.

Neutra Text Bold is to be used for all headlines and subheads in printed material.

Use of any other typefaces in connection with the logo must be approved by AALA.

NEUTRA TEXT BOLD ALT

ABCDEFGHIJKLMNOPQRSTUVWXYZ

abcdefghijklmnopqrstuvwxyz

123456789

Neutra Text Bold Alt
is used for titles in all Caps.

Kepler Std Medium

ABCDEFGHIJKLMNOPQRSTUVWXYZ

abcdefghijklmnopqrstuvwxyz

123456789

MetaSerifOT-Black can be used in
social media posts to create impact in
headlines and banners

BRAND UNIVERSE

To ensure consistency of all communication tools, it is necessary to use the same graphic codes.

TRIANGLES

The triangles are the main graphical elements used to harmonise AALA's communication. You can use them to add some dynamics to the layout of your pages by varying the colours (yellow and light/dark blue) or using the gradients. It is possible to use the triangular grid to position the coloured triangles in your page layout. In exceptional cases, you can exercise some "freedom" when using the triangles, without the need to base your work on the grid.

LINES

BULLETED LIST

Use the following arrows for the bulleted lists:

- Icia si del ipitate molut laut eati beati
- quas es volutem dolupta quaspedicim

TABLE

PARTNERS

Stinct	SME	Sweden	www.shiftdesign.se
Pensionarernas Riksorganisation	End-user	Sweden	http://www.pro.se/Distrikt/Goteborg

GRID & FORMATS

GRID

For all print media, it is necessary to use a grid layout.
For catalogs and brochures, this grid is composed of 6 columns.

FORMATS

It is recommended for brochures and catalogs to use a magazine format: 210x270mm. For other media (flyer, poster, ...) and stationery, the format is based on DIN A4 or a variant of it.

GRID & FORMATS

TRIANGLES GRID

When working with the grid, simply base your work on the triangular shape of the “A” in the AAL logo to determine the height of the triangles which form the new layout grid.

You can obviously combine both grids, in fact this is recommended.

Format: A4

PHOTOS & ILLUSTRATIONS

Photos or illustrations that you use in your communication media say as much about your brand as the words you use. It is therefore necessary to very carefully choose the photos that illustrate your article or event.

KEYWORDS:

Exclusivity, innovation, technology, elderly, independence, optimistic.

NEVER use a photo or illustration that does not communicate a human dimension.

NEVER use a photo or illustration that is already used by a competitor or a partner.

NEVER use a photo or illustration derived directly from an image bank, without adapting it.

NEVER use a photo or illustration that does not directly illustrate what you want to communicate.

NEVER use amateur photos.

NEVER use a photo or illustration that does not have sufficient resolution.

NEVER use a photo or illustration that is not free of rights.

EXAMPLES

EVENTS & PARTNERS

For events promoted or co-organized by the AALA, the following framework rules have to be respected:

- Outsiders who use the brand of AALA must comply with the rules contained in this guide.
- No logo will be created specifically for an event promoted by AALA.
- No photo or illustration will be used to promote an event without reference to AALA.
- No other typography or color can be used in a communication medium if AALA is the main promoter.
- No partner logo will be directly linked to AALA's.
- The signature of AALA must be spontaneously identifiable (layout, use of color, typography, logo, photo, ...).
- Partners can look at the following documents as a design reference: project catalog and website www.aal-europe.eu

ARTWORK

The AALA Programme files are available from the Communication Office.

Telephone: 0032 2204 02 11

Email: nicola.filizola@aal-europe.eu

.EPS / .AI

The logo is also supplied in jpeg format for use in applications such as PowerPoint presentations and websites. EPS (Encapsulated Post Script) and AI (Adobe Illustrator Artwork) files are vector artwork and are the recommended format for printing because they are a very high resolution (800 dpi) and feature transparent background areas. These files have been saved as Adobe Illustrator EPS and AI files compatible with version 5.0 to the most recent. They are both Macintosh and PC compatible.

.JPG

Jpeg vesions of the logos and all imagery are supplied as high resolution jpegs - these must be used as a second preference to the eps logos supplied.

CONSORTIUM COMPOSITION

- Consortium must include at least three independent eligible organisations from at least three different AAL Partner States participating in the Call for Proposals
- Consortium must include at least
 - one business partner
 - one SME partner which can be the business partner
 - one end-user organization
- Compliance of the consortium members to the specific national eligibility rules found at www.aal-europe.eu
- Adherence to the specifications for structure and technical details (e.g. page count) of the proposal submission.

AAL

The logo features the letters 'AAL' in a bold, blue, sans-serif font. Below the letters is a stylized yellow swoosh that curves upwards at both ends, resembling a smile or a bridge. Below the swoosh, the word 'PROGRAMME' is written in a smaller, blue, sans-serif font.
